Quantum-Touch teaches techniques for focusing and amplifying life-force energy (chi) through simple breathing and body-awareness exercises. This practice stimulates our biological intelligence to promote healing in everything from major immune disorders to chronic pain to emotional disturbances. A new addition to Alain Herriott ' s successful series that includes Supercharging Quantum-Touch, this manual of advanced techniques is geared toward those who already know the basics of Quantum-Touch or have backgrounds in general energy healing, Chinese disciplines such as tai chi and qi gong, or the yogic and dance disciplines. Techniques are presented through step-by-step exercises that facilitate the energy flow through both teacher and patient. This energy transference encourages bone alignment, stress reduction, and deep and lasting healing. Quantum-Touch Core Transformation shows how to truly experience oneself (emotionally, spiritually, physically) and to begin to open consciousness and enter a whole new level of being. Written in the trademark thoughtful, engaging style of Quantum-Touch authors, this book is an authoritative resource for any alternative-health professional involved in serious bodywork.

" This pioneering book offers a unique constellation of essays focused on the important social and economic changes affecting educational institutions in China. It provides an in-depth examination of the potential and obstacles for business and management education in the world's second largest economy and most populated country. This volume is an essential resource for anyone with an interest in teaching, developing a new program, or entering into a joint venture in China. A wide range of topics, such as economic transition, pedagogical issues, professional training and alliance formation, are discussed from the standpoint of deans, educators, directors and consultants of educational institutions hailing from both the East and the West. Contents:Economic Transition and International Cooperation:Economic Transition and Management Skills: The Case of China (X Bai & P Enderwick)Managing in a Relation-based Environment: A Teaching Agenda for International Business (S Li & S Maurer)Pedagogical Issues in ChinaEast Meets West: The Dilemma of Management Pedagogy in China (X Wang et al.)Meeting China's Need for Case-Based Teaching Material: The Ivey Business School Experience (P W Beamish et al.)Professional Business Training in China:Trends and Practices in Management Development in China (N Lynton & F Bressot)Building a Qualified Team of Management Consultants: The Professional Training and Certification of Management Consultants in China (W Zhang & Y Zhang)A Cross-Cultural, Cross-Discipline Business Education Program in Mainland China: Training a Managerial Workforce for China's Economic Transition (H Kleinmann & L Lu)Land other papers Readership: Deans, educators, consultants, researchers and policy makers dealing with international business; business people interested in the Chinese social and economic environments. Keywords:Chinese,China,Economy,Education;Institutions;Alliance;Pedagogy;Training;Joint Ventures,MBA Schools;Business;ManagementKey Features:The most comprehensive and authoritative book on Chinese business and management educationDistinguished contributors include Paul Beamish from the Richard Ivey School of Business of the University of Western OntarioAn essential read before departure to China whether you are going to teach, negotiate, or plan to enter the marketProvides a good reference on emergent labor markets that exist for highly educated managerial talent in ChinaReviews: " This volume contains a wealth of valuable information and data on technical aspects of business education and delivery systems, including the Chinese focus on entrepreneurship. It is a worthy reference manual for anyone who seeks to understand the cross-fertilization between Western business education and emerging higher education in China. " Robert G Hawkins Emeritus Professor of Management and Economics Georgia Institute of Technology " This book will be useful for both Western as well as Chinese instructors in business education. On the one hand, the Western instructors will pick up useful tips to manage Chinese classes. On the other, the Chinese instructors can foresee challenges in teaching Western management know-how. This is a story of battle, sudden death, siege, plot and counterplot set in 1202 during the turbulent reign of King John of England. The tale starts with the rescue of John's mother, Eleanor of Aquitaine and sweeps through Normandy, England and Wales seen through the eyes of a young knight, Roger de Clare, an aide to William Marshal, Earle of Pembroke and a pivotal figure of this era. John has to contend with Philip, king of France, who wants his country back, all of it; and with a restless set of Barons who could start a civil war if they don't get what they want. Marshal sees himself as a balance between all the opposing forces and uses Roger ruthlessly as his agent to achieve his ends in the secret winter war against Philip. Young Arthur, Count of Brittany and John's nephew, disappears and Roger becomes his keeper, smuggling him out of France to Wales to hold him safe against John's enemies who are searching for the boy to use him against John. The future of the English throne hangs in the balance.
