<p>In over 200 recipes, Jessica Fisher shows budget-conscious cooks how they can eat remarkably well without breaking the bank.Good Cheap Eats serves up 70 three-course dinners—main course, side, and dessert—all for less than ten dollars for a family of four. Chapters include "Something Meatier," on traditional meat-centered dinners, "Stretching It," which shows how to flavor and accent meat so that you are using less than usual but still getting lots of flavor, and "Company Dinners," which proves that you can entertain well on the cheap. The hard-won wisdom, creative problem-solving techniques, and culinary imagination she brings to the task have been chronicled lovingly in her widely read blog Good Cheap Eats. Now, with the publication of the bookGood Cheap Eats, she shows budget-challenged, or simply penny-pinching, home cooks how they can save loads of money on food and still eat smashingly well.</p>	<p>Growth and competitive advantage are about effective positioning. Building effective positioning is challenging today for firms facing new and stronger competition, volatile and uncertain markets, and shifting customer desires and demands. The 3-Circle Model facilitates speed of understanding and action by focusing attention on the most critical strategy concepts in this uncertain environment. Growth strategy emerges in the model from systematically addressing four key strategy directives in a deep and disciplined way: define, build, and defend the unique value you create for customers; correct, eliminate, or reveal value that is failing customers or of which they're not aware; potentially neutralize the unique value created for customers by competitors; explore and exploit new growth opportunities through deep understanding of customers' unmet needs.</p>

<p>First in the YA bestselling fantasy trilogy of the battle between Light and Dark. " If you loved the Twilight series, you will love this book. " —Giuliana Rancic, E! News anchor Caroline Ellis ' s sixteenth birthday sets into motion a series of events that have been fated for centuries. A descendant of Virginia Dare, the first child born in the lost colony of Roanoke, and unaware of her birthright as the heir to the throne of the Light Fae, it isn ' t until Caroline begins a tumultuous relationship with Devilyn Reilly that the truth of her heritage is revealed. Devilyn is the only Fae who is both of the Light and of the Dark, and struggles to maintain that precarious balance to avoid succumbing to the power of the Dark within him. He is the only one who can save Caroline from those who would destroy her and destroy all hope for unity among the Fae. He promises Caroline that he will protect her at all costs, even when it means protecting her from himself. Told from the alternating perspectives of Caroline and Devilyn, Fae draws on mysteries, myths and legends to create a world, and a romance, dangerously poised between Light and Dark. Praise for the Fae trilogy " A phenomenal series. " —Margaret Stohl, #1 New York Times bestselling coauthor of Jo & Laurie " Lovers you must buy a copy! " —Nicky Whelan, actress, Hall Pass, Franklin & Bash " Since the Twilight series recently came to an end, the search for the next hit teen novel is on. Fortunately, with C.J. Abedi ' s first book in the Fae series, there may be no need to look any further. " —Firsttoknow.com</p>	<p>A hilarious and hopeful primer to prevent, combat, and eliminate the suckage in modern marriage by doing it right in the early years, from one of the minds behind the series Sex and the City and the New York Times bestselling authors of He ' s Just Not That Into You, It ' s Called a Breakup Because It ' s Broken, and It ' s Just a F***ing Date Some marriages start out storybook. Perfect proposal, perfect engagement, perfect wedding, perfect honeymoon, and perfect newlywed years. Greg Behrendt and Amiira Ruotola stumbled right out of the wedding gate. Their choices in the early years, they ' ll tell you, nearly bought their marriage a one-way ticket to Suckville. The New York Times bestselling authors explore all the adventures of early wedlock, from the moment one of you gets on one knee to the day when sex starts to feel like work instead of play. In this guidebook, Behrendt and Ruotola explore their own marriage and, with gleeful candor, tremendous warmth, sharp humor, and piercing insight, look at what we who have decided to " settle down " hope to get out of our most lasting relationship. We venture through volumes on the engagement, wedding planning, the Big Day, the wedding hangover, the (blissful?) first year, the hard work of marrying two lives, fights, and sex-pectations versus sex-pectreality. The perfect book for those who have just put a ring on it or are thinking of putting a ring on it, Behrendt and Ruotola ' s work is a brilliant guide for the first stretch of that wild ride we call marriage.</p>
---	---

<p>"This volume has three parts: the first focuses on cyberspace itself; the second on some of the major forms of malevolence or threats that have become one of its defining characteristics; and the third on possible responses to these threats. One of the most significant features of cyberspace, however, is that it is becoming a risky place for the entire spectrum of users: nation-states, nongovernmental and transnational organizations, commercial enterprises, and individuals. Yet it is a space of opportunities -- for benevolent, neutral, and malevolent actors. Moreover, the authors identify and assess the challenges and threats to security that can arise in cyberspace because of its unique nature. In the final section, the authors discuss a variety of responses, with some suggesting that the most favored options being pursued by the United States are poorly conceived and ill-suited to the tasks at hand"--Publisher's web site.</p>	<p>Since Lightroom 1.0 first launched, Scott ' s Kelby ' s The Adobe Photoshop Lightroom Book for Digital Photographers has been the world ' s #1 bestselling Lightroom book (it has been translated into a dozen different languages), and in this latest version for Lightroom 6, Scott uses his same award-winning, step-by-step, plain-English style and layout to make learning Lightroom easy and fun. Scott doesn ' t just show you which sliders do what (every Lightroom book will do that). Instead, by using the following three simple, yet brilliant, techniques that make it just an incredible learning tool, this book shows you how to create your own photography workflow using Lightroom: • Throughout the book, Scott shares his own personal settings and studio-tested techniques. Each year he trains thousands of Lightroom users at his live seminars and through that he ' s learned what really works, what doesn ' t, and he tells you flat out which techniques work best, which to avoid, and why. • The entire book is laid out in a real workflow order with everything step by step, so you can begin using Lightroom like a pro from the start. • What really sets this book apart is the last chapter. This is where Scott dramatically answers his #1 most-asked Lightroom question, which is: " Exactly what order am I supposed to do things in, and where does Photoshop fit in? " You ' ll see Scott ' s entire start-to-finish Lightroom 6 workflow and learn how to incorporate it into your own workflow. • Plus, this book includes a downloadable collection of some of the hottest Lightroom Develop module presets to give you a bunch of amazing effects with just one click! Scott knows firsthand the challenges today ' s digital photographers are facing, and what they want to learn next to make their workflow faster, easier, and more fun. He has incorporated all of that into this major update for Lightroom 6. It ' s the first and only book to bring the whole process together in such a clear, concise, and visual way. Plus, the book includes a special chapter on integrating Adobe Photoshop seamlessly right into your workflow, and you ' ll learn some of Scott ' s latest Photoshop portrait retouching techniques and special effects, which take this book to a whole new level. There is no faster, more straight to the point, or more fun way to learn Lightroom than with this groundbreaking book.</p>

<p>One of the most shocking and insidious cases in the history of medicine: the crimes of one nurse were hidden by a hospital for years... It ' s 1980, and Genee Jones is working the 3 to 11 PM shift in the pediatric ICU in San Antonio's county hospital. As the weeks go by, infants under her care begin experiencing unexpected complications—and dying—in alarming numbers, prompting rumors that there is a murderer among the staff. Her eight-hour shift would come to be called " the death shift. " This strange epidemic would continue unabated for more than a year, before Jones is quietly sent off—with a good recommendation—to a rural pediatric clinic. There, eight children under her care mysteriously stopped breathing—and a 15-month-old baby girl died. In May 1984, Jones was finally arrested, leading to a trial that revealed not only her deeply disturbed mind and a willingness to kill, but a desire to play ' God ' with the lives of the children under her care. More shocking still, it was discovered that the hospital had shredded records and remained silent about Jones ' horrific deeds, obscuring the full extent of her spree and prompting grieving parents to ask: Why? Elkind chronicles Jones' rampage, her trials, and the chilling aftermath of one of the most horrific crimes in America, and turns his piercing gaze onto those responsible for its cover-up. It is a tale with special relevance today, as prosecutors, distraught parents, and victims' advocates struggle to keep Jones behind bars, despite her scheduled mandatory release from a Texas prison in early 2018. " Intriguing...A horrifying true-life medical thriller..." —PUBLISHERS WEEKLY " Gripping...A remarkable journalistic achievement!" —NEWSWEEK " Murder, madness, and medicine...superb! " —LIBRARY JOURNAL " Shocking...true crime reporting at its most compelling. " —BOOKLIST</p>	<p>Dieses Lehrbuch f ührt in verst ä ndlicher, systematischer und knapper Form in die Problemfelder der Marketingplanung ein. Sowohl die Marketingplanung auf der Unternehmens- und Gesch ä ftsebene als auch die Planung des Marketing-Mix werden behandelt. Mit Hilfe von zahlreichen kurzen Fallbeispielen werden wesentliche Aspekte des Inhaltes veranschaulicht. Die Autoren haben in der 7. Auflage alle Kapitel ü berarbeitet und diverse neue Praxisbeispiele aufgenommen. Bei der Markenf ü hrung wurden einige Grundlagen erg ä nzt.</p>
