## Deflagration Detonation

### *Helena's North Hills*

The rapid combustion reaction in a detonation or deflagration results in heating, expansion and overpressure. In a deflagration the pressure front is moving through the unburned medium faster than the ...

### *Chapter 3: Explosion Venting*

A flame propagating through the unburned charge of air and fuel, and defining a rapid chemical change occurring in a thin layer, accompanies the combustion process. The deflagration regime ... In the ...
