the research in Stopping Kidney Disease, the highest rated book on kidney disease which has benefited hundreds of patients. It's simple. We as patients want our kidneys to last as long as possible, and we want to live longer and better lives. We want a cure, but if we can't get a cure we want to slow the kidney disease progression to a snail's pace. That's what we want and deserve. The problem is today's kidney diets have nothing in common with our real goals.

Traditional and other current kidney diets focus on treating just three conditions as we all know: sodium, phosphorus, and potassium. However, most of us have many more comorbid conditions made worse by traditional kidney diets. We need to try and treat, cure or manage as many conditions as possible, not just three. You would never
