HOMELITE - Techtronic Industries TTI
A GFCI can be used with generators that have the neutral wire internally grounded to the frame properly grounded to the earth. The GFCI will not work on generators that do not have the neutral grounded to the frame. Homelite generators have neutral wire ground to frame. WARNING The GFCI may not function unless the generator is properly grounded.

Homelite petrol generator 720W. I am listing this as not working as I cannot confirm that it still does. It used to work fine, but has been hanging around in our garden for a few years. Probably just needs a bit of TLC. Pick up only From PO9. There is a spark from the spark plug. Could need a carb clean or just a change of petrol
