Grade level: 11, s, t.

A custom Chemistry resource proudly created for Wellington Secondary School by Edvantage Interactive.

Grade level: 11, s, t.

The Student Book provides an easy-to-use 'nuts and bolts' book at each year level, covering the full range of Stages 5.1, 5.2 and 5.3 in Years 9 and 10, with content from all three Stages explicitly labelled, as well as presenting 3 differentiated pathways through every exercise: Foundation, Standard and Advanced.

This volume provides basic information about managing wild bees and on the use of their products. It identifies and describes major bee species and their importance for nature conservation and for sustaining livelihoods of rural people. Bee products are considered at both subsistence and commercial level, and particular attention is given to the potential for further development of managing wild been species in developing countries. The role of bees for pollination of crops and the impact of managing bees on forestry and farming are presented. Wild-bee keeping techniques, honey production and marketing, and the international trade in been products are described with further references and sources of additional information given. Using this publication, readers will better understand the complexities and opportunities for developing apiculture by rural livelihoods. Also published in French.

All the Convenience of a Workbook. All the Instructional Support of a Textbook. All the Digital Innovation you'd expect from Pearson. Pearson's Pre-calculus 11 and Pre-calculus 12 are designed to be all about you -- flexible enough to fit the unique needs and preferences of you and your class, and made to be personalized.
