There are three steps you should take before composing your training manual. These steps are similar to designing any other performance improvement intervention. Step 1: Complete a Front-end Analysis Before writing a training manual, you should have completed some type of front-end analysis, including task analysis.

How to Create Effective Training Manuals

Most customer service is defined by how a company or organization treats "external customers," but there is "internal customer service" as well. While this manual mainly addresses "external customers," expanding your definition of customer service to include co-workers will lead toward even greater success.

Customer Service Training Manual

Make training a part of day-to-day management, so it's not seen as something that is additional or optional. This goes for both staff and supervisors/managers. Identify those who have an interest in developing their CV and are willing to take on training responsibilities as part of their own development.
