Rajmohan Gandhi's book on Mahatma Gandhi has created a controversy mainly because one of the chapters is devoted to Gandhiji's relations with Saraladevi Choudharani whom he called his spiritual wife. Girja Kumar gives a more vivid characterisation of this relationship in his book which was released last year. This book, in fact, gives an authentic account of the Mahatma's relations with various other women associates and the repercussions these romantic liaisons produced on those close to him, including 'Ba' (Kasturba Gandhi). The book is ready to go into reprint and the paperback edition will shortly hit the stands. A Hindi edition is also coming up.

"My Life is My Message" "You may be sure I am living now just the way I wish to live. What I might have done at the beginning, had I more light, I am doing now in the evening of my life, at the end of my career, building from the bottom up. study my way of living here, study my surroundings, if you wish to know what I am. Village improvement is the only foundation on which conditions in India can be permanently ameliorated." M. K. Gandhi

cache of these letters was recently discovered in the KGB Special Archive in Moscow, having been carted off to Russia by the Soviet Secret Police at the end of the war. The letters range from gushing love letters - 'I love you so much. Write to me, please,' this from a seven-year old girl named Gina - to letters from teachers, students, priests, businessmen and others expressing gratitude for alleviating poverty or restoring dignity to the German people. There are a few protest letters and the occasional desperate plea to release a loved one from a concentration camp, but the overwhelming majority are positive and even rapturous, shedding fresh light on the nature of the Hitler cult in Nazi Germany. This volume is the first publication of these letters in English. It comprises a selection of the letters and includes a contextualizing commentary that explains the situation of each writer, how the letter was dealt with and what it tells us about Nazi Germany. The commentary also describes the bureaucratic procedures that evolved to deal with the correspondence (Hitler never read any of it), which ranged from warm thanks to referral to the Gestapo.
