operations in a regulated industry. Covering current and established practices, this guide helps achieve technical and regulatory accuracy and cost-effective compliance in a new or an existing maintenance program for effective strategy and efficiency.

### ~~Maintenance | ISPE | International Society for ...~~

This Guide brings a wealth of information on GEPs and provides benchmarking tools of current company practices against what is considered industry good practice. The ASTM standard (E2500) builds on the concepts of GEPs and has substantial implications for reductions in cost and time for pharmaceutical capital investment projects.

### ~~Good Practice Guide: Good Engineering Practice~~

This course leverages the content and templates from the ISPE Good Practice Guide: Maintenance to provide the tools for the development, implementation, and execution of cost-effective compliance for new or existing maintenance programs in a pharmaceutical manufacturing environment.

### ~~Maintenance: Reliability, Engineering and Asset ... - ISPE~~

It helps to develop, establish, document, implement, maintain and improve industry good practice for product requiring controlled cold conditions. The Guide is intended to provide practical guidance to assist in the specification, design, commissioning and verification of the fixed and passive systems within the cold chain.

### ~~Good Practice Guide: Cold Chain Management~~

The ISPE Good Practice Guide: Heating, Ventilation, and Air Conditioning (HVAC) provides designers and project teams with suggestions to help determine the user requirements and the functional design that define the facility's objectives. It also provides options to be considered in creating a design that has low lifecycle cost and is sustainable.

### ~~Good Practice Guide: Heating, Ventilation, & Air ... - ISPE~~

Good Engineering Practice documentation standards; The intent of this revision to the Guide is to help the pharmaceutical industry simplify and improve the C&Q process by bringing the “ best of the best ” together into one document. This Guide also combines concepts from regulatory guidances (e.g., from EMA, FDA, ISO).

### ~~Baseline Guide Volume 5: Commissioning and Qualification ...~~

Benefits Provided by the ISPE Good Practice Guide: Controlled Temperature Chamber Mapping and Monitoring There is an increased regulatory interest in cold chain driven by the growing number of products requiring controlled temperature shipping and storage, the complexity of the distribution network for the products, and governmental requirements for distribution of vaccines.
