Mapping the Nation: History and Cartography in Nineteenth ...

This is a companion site to the book, Mapping the Nation, which explores a tremendously creative era in American cartography. From maps of disease and the weather to the earliest maps of the national population, this was a period when the very concept of a map was reinvented. By the early twentieth century, maps had become common tools of analysis, communication, and visual representation in an increasingly complex nation.

Mapping the Nation - A Companion Site to Mapping the ...

After the Civil War, federal agencies embraced statistical and thematic mapping in order to profile the ethnic, racial, economic, moral, and physical attributes of a reunified nation. By the end of...

Mapping the Nation: History and Cartography in Nineteenth ...

Engaging and informative, Mapping the Nation is a novel and persuasive look at American history, visually and cartographically. " — Mark Monmonier, Syracuse University " In a work of deep scholarship and insight, Susan Schulten traces the origins of a now-ubiquitous presence in American life: maps with a story to tell.

Mapping the Nation – History and Cartography in Nineteenth ...

In Mapping the Nation, Susan Schulten charts how maps of epidemic disease, slavery, census statistics, the environment, and the past demonstrated the analytical potential of cartography, and in the process transformed the very meaning of a map. Today, statistical and thematic maps are so ubiquitous that we take for granted that data will be arranged cartographically.

Mapping the Nation: History and Cartography in Nineteenth ...

In the nineteenth century, Americans began to use maps in radically new ways. For the first time, medical men mapped diseases to understand and prevent epidemics, natural scientists mapped climate and rainfall to uncover weather patterns, educators mapped the past to foster national loyalty among students, and Northerners mapped slavery to assess the power of the South.
