The specific model/vintage of Big Block V8 Mercuriser Engine can be determined by looking at the last letters of the engine code which is stamped by General Motors at the time of assembly on all complete Marine Longblocks. If the serial number and/or model decals are missing, the Engine code will help to determine the engine model. Refer to the drawing below for the specific engine code location on your Mercuriser Engine. Information you need from the engine code, example M01187MH, 7=General ...

The serial number format is the same. Japanese Mariner motors have a totally different serial number scheme, e.g. "6A3-S-123456 " We currently do not have those here, but are largely useless. These motors do not have any consistent year-to-serial scheme. Mercury ceased publishing this information after the 1996 model year.
