An option is a conditional derivative contract that permits contract buyers to either buy or sell an asset as a predetermined price. To make it happen, the sellers charge the buyers an amount called a "premium.". If the price of the asset becomes unfavorable for the options holders, the option will expire worthlessly.

Options Trading Strategies Beginners Guide - With Free PDF

Options are financial contracts that grant the buyer of the option the right, but not the obligation to buy or sell the underlying asset at a set price on or before a certain date in the future. The right to sell is a put option, while the right to purchase the underlying security is a call option. Learn to Trade For Profit 261 subscribers
