Apulia (or Puglia) is the heel of Italy, stretching down from the spur of the Italian boot. Its landscape is often very beautiful and it has wonderful old cities with Romanesque cathedrals, Gothic castles and a great wealth of Baroque architecture, together with 'rupestrian' churches that contain Byzantine frescoes. But, although far from inaccessible, until quite recently it was seldom visited by Anglo Saxons. Today, however, Apulia is becoming fashionable, 'an alternative to Tuscany'. It is featured on radio and television; travel supplements describe its beaches and its cooking, supermarkets stock Apulian wine, oil, bread and pasta. Yet almost nothing about the region has been published in English since the days of Norman Douglas and the Sitwells. One can find 'holiday histories' of Tuscany, but there is no popular introduction to Apulian history, not even in Italian. Our book, which grew out of what was originally intended as a travel book, has been written to fill the gap by providing a simple, readable account.

Puglia is a developing tourist area in Southern Italy that is beginning to attract tourists to its varied charms. No longer just a terminus for departing to other destinations it is becoming appreciated for its own attractions. Originally a humble farming region Puglia has been influence by Greeks, Romans, Normans and Byzantines who each made an impact on the landscape by building ports, churches and other magnificent buildings. This book aims to give the tourist an opportunity to visit and enjoy not only the few major attractions that a guided tour usually includes but many of the other interesting sights that many people do not see. By providing five different walking routes and detailed information about each attraction passed it puts a visitor to Puglia in charge of the time spent at any particular place rather than having to rush and keep up with a guide or join costly tours. The tours will enable you to experience the variety and atmosphere of some contrasting destinations in Puglia. You will be surprised to discover the rich historical monuments of Brindisi and astounded by the Baroque architecture of Lecce; you'll marvel at the unique construction of the Trulli of Alberobello and be transported back in time when exploring the Sassi of Matera.
